

AGRICULTURAL PRODUCER INPUT SESSIONS

As the County begins implementing recommendations of the Agriculture Master Plan (AMP), input from agricultural producers throughout the County is needed regarding:

- Improving levels of service to support safe and timely movement of agricultural equipment and products
- Identifying roads for consideration as “agricultural priority roads”

Please bring your specific site locations of constraints to moving wide equipment, livestock or other products. Also think about restrictions of continuity of travel for the above.

Plan to attend one of the following sessions. No need to register, just show up!

Tuesday, November 6

CROSSFIELD HALL

6:30 to 8:30 pm

Wednesday, November 7

INDUS RECREATION CENTRE

6:30 to 8:30 pm

Thursday, November 8

IRRICANA COMMUNITY HALL

6:30 to 8:30 pm
